

Dear Vanier community,

As you have heard in the media, the mask mandate will be lifted in Quebec as of tomorrow.

In an effort to minimize the potential spread of COVID during a particularly crucial time for our community, Vanier College is maintaining the mask requirement **through the exam period until May 25, 2022**.

After that date, wearing a mask will be highly recommended, but not mandatory (with certain exceptions, such as during the 5 days following a COVID infection). Masks will continue to be provided at various building entrances.

Please remember that if experiencing flu-like symptoms, you must not come to the college. Refer to the Government's [self-assessment](#) tool and [self-isolation instructions](#) for further information.

Thank you to each of you for your continued cooperation.
