Teacher: Samir Chebbine   **Assignment Web Site**   **Jun 28, 2022**

Objectives:	Development of Web Site

This project is the culmination of the HTML course. You can start developing your Web Site; the project must be small enough so that it can be completed by the end of the course.

The Web Site needs to include *at least* 8 Web pages and has to contain all HTML elements used in Labs (Linking to different Web Pages, CSS for formatting the style, Tables, and Forms). You should also add to some of your HTML pages an inline style, add a code to insert an embedded style sheet, and create CSS files as external Style Sheet for other Web Pages.

A. Project Proposal to be submitted Jul 03, 2022

- Outline the project's
    - Purpose (why is it being developed?)
    - Applicability (who will use the system, and how will they benefit?), and
    - Goal (what functionality do you want to develop?).

Maximum **1 page**

B. Web Site State of Progress to be submitted Jul 09, 2022

Please send me the description of what you have done so far in your Web Site Project including project plan, appropriate screen shots, Web Pages.

The Web Site state of Progress 2 is due on (**Jul 21, 2022**).
This is a preliminary step toward the final submission of your Web Site project due on **Jul 28, 2022**.

C. Final Project Web Site to be submitted at the end of due date: Jul 28, 2022

- Describe a project that will include:
    - Linking Hypertext elements
    - Inserting Images and Map Image
    - Inserting Tables, as well as
    - Inserting Forms for input data
- Outline the project's
    - Purpose (why is it being developed?)
    - Applicability (who will use the system, and how will they benefit?), and
    - Goal (what functionality do you want to develop?).

- Describe
  - The data to be entered and retrieved by the user,
  - The forms, and
  - Any interesting things you learned during its development. What was surprisingly easy, hard, or fun?

Project implementation: Upload Your Web Site into Omnivox. Demo could be given on the last day of class

Project report:

- Describe the project.
- State any differences between the system developed and the one described in the proposal
- What challenges were faced?

Maximum **10 pages**

What to hand in

Create and Submit the Word file ReportYourName.doc for storing the following:
1. You have to compress your folder Assignment Web Site containing the HTML, CSS files and your Word Document report (if any) and upload it onto Omnivox.
